PERMISSION TO ENTER

DATE: _____ BP#: _____

OWNER/AGENT: _____

ADDRESS: _____

SITE ADDRESS: _____

PARCEL NUMBER: _____ PHONE NUMBER _____

I understand that the City of Napavine requires owner permission for city personnel to enter private property to conduct permit processing, review and inspections. I also understand that my failure to grant permission to enter, or an inability to contact me for prior notification of the time and date of inspection entries, may result in denial or withdrawal of a permit or approval.

Applications have been submitted for the following services:

- 1) _____
- 2) _____
- 3) _____

Which may require on site permit processing, review and inspection by employees of the Community Development Department, and/or Public Works Department for the property stated above.

By my signature below, permission is granted for representative(s) of the Community Development and Public Works Departments to enter and remain on and about the property for the sole purpose of processing such permits and performing required inspections and/or reviews.

By my signature below, I certify that I am either the current legal owner of this property or their authorized representative. With this document I take full responsibility for the lawful action that this document allows.

Signature of Owner or Authorized Representative

Prior notification of the date and time of inspection is: () Not required () Requested.
Must provide phone number where applicant can be reached between the hours of 8 am and 5 pm Mon-Fri.

*CITY OF NAPAVINE
COMMUNITY DEVELOPMENT DEPARTMENT*

PROPOSED STRUCTURE SITING DIAGRAM

CALL FOR THE FOLLOWING
REQUIRED INSPECTIONS

To clarify when it is necessary for the owner or contractor to notify this office of a required inspection, the following guidelines are provided.

- POST HOLES: After all holes are dug and concrete placed in bottom of hole.
SET BACKS: Set backs from property lines are based on furthest point of build. i.e. gutter line. All construction must meet set back requirements from property lines.
- FOOTINGS: After forms are set, rebar is in place, and prior to pouring.
FOUNDATION: Concrete Walls: After forms are set and braced, rebar is in place, and prior to pouring.
CMU Walls: After completion of mortaring all blocks in place and prior to setting any plates. All bond beams or other reinforced cells to be inspected before grouting.
- UNDERSLAB: After all plumbing groundwork installed and tested with all copper and ABS wrapped or sleeved if in contact with concrete; moisture barrier installed and any required slab insulation installed.

NOTE: The Building Official may require the removal of any foundation work done or concealed without the required inspection.

- FIREPLACE/CHIMNEY: At top of firebox.
SHEAR NAILING: Prior to cover.
ROUGH PLUMBING: After all rough plumbing including drains, vents, and water supply lines are completed and tested.
- ROUGH MECHANICAL: After all ductwork installed and properly supported.
FRAMING: After completion of all rough framing and windows installed; masonry, plumbing, mechanical, and electrical rough-in is done; prior to installation of insulation or sheetrock.
- INSULATION: After approval of framing inspection, insulation installed and caulking completed prior to installation of any sheetrock.
- SHEETROCK: After insulation inspection approved, sheetrock installed and prior to taping and finishing.
- FINAL: All systems installed and building ready for occupancy.

NOTE: Any structural framework, rough plumbing, or rough mechanical covered or concealed without the approval of the Building Official may be subject to removal by the owner or contractor at the request of the Building Official.

In addition to the called inspections specified above, the Building Official may make, or require, any other inspections of any construction work to determine compliance with the provisions of the code.

Arrangements for inspections may be made by calling (360) 262-9344 extension 241. For scheduling purposes, 24-hour notice is required for all inspections. In order to accomplish this, advance planning by the owner or contractor must be done to avoid unnecessary construction delays.
